

Western Division Boston Water Works,

Brookline, Mass., Feb. 26th, 1887.

Dear Sir:

Is it within the province of the Govt. to furnish medals for educational & scientific purposes ?

I have had a project in my mind for founding a medal prize for Phillips Academy, Andover, Mass. for mathematics and I would like to ascertain

1st if there is at the mint now any die which would answer for

the obverse side of a bronze medal of about 3" diam. and probably  
2d what it would cost to complete a set of dies which would answer the above purpose.

3d. Whether the mint could become the custodian of such dies for the purpose of striking off one every year.

Very Respy Yours,

Desmond Fitzgerald
